PULL-OUT CLOSET MIRROR

CMSL Series

Pulls out smoothly and swivels 90°

This Pull-out Swivel Closet Mirror makes space where none exists for a wardrobe mirror. Fastening to a side wall or a panel, mirror uses only 3" of horizontal storage space, about the same as a stowed ironing board tucked away. When needed, pull out on full-extension, soft-close ball-bearing slides and then swivel 90° to face you. When you are finished viewing, simply pivot it back and give it a nudge to return it to its hiding place.

- Full body image when standing 24" from the mirror
- Adjustable height to meet the viewer's needs
- Fits any partition at least 14" deep and 8" wide
- Allow 5.75" for swiveling clearance
- Pulls out smoothly and swivels 90 degrees
- Can be installed behind cabinet doors
- Universal, non-handed
- Soft-close retracting mechanism requires only a gentle push

ADA TOE KICKS

White Powder Coated Steel

The setback is measured from the back of the door to the back of the toe kick.

This 18 gauge steel powder coated bracket allows the toe kick to swing out with the cabinet door allowing unimpeded access for wheel chairs to sink, counter, desk, or other work areas.

The toe kick allows for the same material as the cabinets creating a truly professional quality job without complicated joinery. This fully adjustable bracket provides a quick, strong, and inexpensive solution. Available in two offsets of 3" and 4" to allow for different toe kick depths.
